EDUCATION

Rutgers University, the state university of New Jersey — May 2021 (anticipated)
Ph.D. in Electrical and Computer Engineering

Chinese Academy of Sciences — July 2015
M.S. in Computer Application Technology

China University of Petroleum — July 2012
B.S. in Communication Engineering

RESEARCH SUMMARY

My research has been focused on the multimedia system, including improving the user experience quality and resolving the security issues. I am interested in a wide range of technologies spanning the broad area of electronic and computer engineering, based on which I propose solutions to the research problems. More specifically, I have conducted research projects including:

- Viewport prediction for live 360-degree video streaming using deep video content analysis and user feedback.
- Improving the privacy and security of multimedia system following a bottom-up approach, from the low-level hardware security schematic (e.g. hardware isolation) to the upper-level software algorithm (e.g. machine learning).

Besides, during my internship, I extend my research areas and focus on the problems of the next generation wireless communication (6G), using AI to solve the complicated parameters estimation of large intelligent surface. Furthermore, I am conducting research to bridge the gap between the next generation wireless communication network and the emerging multimedia system. Here is my professional summary:

- 8 peer-reviewed publications and 6 academic presentations.
- 2 undergraduate research findings.
- 2.5-year teaching experience honored with Best Teaching Assistant Award.

PROFESSIONAL EXPERIENCE

Research Scientist — May 2020 – August 2020
Futurewei, Wireless Communication Lab

Graduate Research Assistant — September 2018 – Present
Rutgers University – New Brunswick, Department of Electrical and Computer Engineering

Graduate Research Assistant — August 2016 – August 2018
University of Nebraska – Lincoln, Department of Computer Science and Engineering

Graduate Research Assistant — August 2015 – May 2016
Missouri University of Science and Technology, Department of Computer Science

Graduate Research Assistant — August 2013 – May 2015
Chinese Academy of Sciences, National Science Space Center

PRESENTATIONS

Oral presentation

- "LiveDeep: Online Viewport Prediction for Live Virtual Reality Streaming Using Lifelong Deep Learning."
- "Towards the Security of Motion Detection-based Video Surveillance on IoT Devices." ACM Multimedia Conference - Thematic Workshop, October 2017.

Poster Presentation

- "Exploring CNN-based Viewport Prediction for Live Virtual Reality Streaming." IEEE AIVR 2019
- "Exploring CNN-based Viewport Prediction for Live Virtual Reality Streaming" Annual Research Day, Department of Electrical and Computer Engineering, Rutgers University, December 2019.
- "Viewport Prediction for Live 360-Degree Mobile Video Streaming Using User-Content Hybrid Motion Tracking." Annual Research Day, Department of Electrical and Computer Engineering, Rutgers University, December 2018.
- "Towards the Security of Motion Detection-based Video Surveillance on IoT Devices." ACM Multimedia Conference - Thematic Workshop, October 2017.

TEACHING EXPERIENCE

Graduate Teaching Assistant
Rutgers University – New Brunswick, Department of Electrical and Computer Engineering

- Digital System Design
  - Fall 2020 (**Lead TA**, 123 students in lecture section, and 75 students in lab section)
  - Fall 2019 (**Lead TA**, 145 students in lecture section, and 90 students in lab section)
  - Fall 2018(**Lead TA**, 161 students in lecture section, and 102 students in lab section)
- Software Engineering
  - Spring 2019 (The only TA, 134 students)
- Computer Architecture and Assembly Code
  - Spring 2020 (42 students in the lecture and lab section)

UNDERGRADUATE RESEARCH GRANTS

Large distance repeater for walkie talkie using VOIP. National University Student Innovation Program, 2010, $1500. Role: PI

Smart sensing for modem greenhouse agriculture. College Student Innovation Program, 2009, $300. Role: Co-Investigator

---

ACCOMPLISHMENTS AND AWARDS

Best Teaching Assistant Fall 2018
- ECE graduate program academic achievement award, Rutgers University.

Academic achievement award 08/2015-12/2015
- For GPA 4.0 in the first semester in Missouri University of Science and Technology.

Qilu Software Design Contest: First Prize 08/2010-09/2010

National Undergraduate Electronic Design Contest: Third Prize 08/2009-09/2009

Scholarship for great academic achievement (twice) 09/2009-09/2010
- Award for GPA at top 15% (14/90), China University of Petroleum.

Scholarship for great innovation in science and technology (twice) 09/2009-09/2010
- Award for academic competition, China University of Petroleum.

SERVICES

President of the Radio Association 06/2009-06/2010
China University of Petroleum
